

**IN THE SPECIFICATION:**

Please **AMEND** paragraph 0074 as follows:

**[0074]** The aforementioned defect management may be embodied as a computer program that can be run by a computer, which can be a general or special purpose computer. Thus, it is understood that the controller 2 can be such a computer. Codes and code segments, which constitute the computer program, can be easily reasoned by a computer programmer in the art. The program is stored in a computer readable medium readable by the computer or in a carrier wave. When the program is read and run by a computer, the defect management is performed. Here, the computer-readable medium may be a magnetic recording medium, an optical recording medium, ~~a carrier wave~~, firmware, or other recordable media.
